

# 9 tips TO HELP DESIGNERS TRULY EMBRACE THE MOBILE CREATIVE OPPORTUNITY

1

Visualise the user journey from the start to the end.

2

Consider creative first - before targeting.

3

Engage the senses - shake, swipe, rotate.

4

Video - shorter is better, prepare without sound.

5

Think location, where you go defines who you are.

6

Consider the user's connection - heavier content on WiFi.

7

Mobile is unique, don't treat it the same as your other advertising avenues.

8

Don't be afraid to keep it simple. Simple is beautiful.

9

Think mobile (hint: vertical, proximity, senses).
